GROWING IN DOWNTOWN NAPLES!

We are happy to announce that Landscape Florida is now the exclusive landscape management provider for **Hoffmann Commercial Real Estate** in Naples!

Hoffmann Commercial Real Estate has become the largest owner of commercial real estate in the Olde Naples area.

Landscape Florida is providing them with our full range of landscape management services as well as our design, renovation and installation services.

Recently, Hoffmann Commercial Real Estate purchased the famed Naples Princess Cruises right on the Gordon River across from Tin City. One of our first projects involved with that purchase is a total renovation of the US41 roadway buffer and parking areas. This project is currently underway and slated for completion soon, so keep an eye out for a whole new look!

We are currently working on other renovation and design possibilities for the Hoffmann Commercial Real Estate group of properties and look forward to *growing* even further with them!

If you would like to learn more about how we can help you with your commercial, mixed use, condo or association properties please contact us today!

Uniforms that Inform:

We uniform our employees by task so that our clients can easily see who is performing what type of contracted activity we are providing or who they may want to talk to!

NEW WEB SITE! www.LandscapeFlorida.com

Using Science in the Soil!

Landscape Florida is always looking for more ways to help our clients plant materials thrive and we have recently added *Quantum Growth* to our line up of resources. *Quantum Growth* is manufactured in a laboratory right here in Southwest Florida and is widely used by the Citrus industry to promote healthier, faster growing fruit trees. What's amazing about this product is that its actually ALIVE! Its made up of millions of living vegetative bacteria that, when introduced to the soil, reproduce, interact with the plant's root system, attract beneficial organisms and biologically balance and improve conditions for optimal growth and health. Landscape Florida is currently offering this amazing product to clients whose plant materials are currently stressed or in need of additional care and we have used it successfully to recover many damaged palm trees from Hurricane Irma! Contact us for more on this safe and eco-friendly product!

Quantum Growth™

PROBIOTICS FOR PLANTS, TREES & TURF
ALL NATURAL • 100% ORGANIC • SAFE & NON-TOXIC
SAFE FOR USE WITH ALL PLANTS, TREES, TURF, FRUITS AND VEGETABLES.

Greenhouse Results

Quantum Growth contains a consortium of probiotic beneficial microorganisms that provide key traits for plant, tree and turf health and growth enhancement.

Benefits & Results

Greenhouse growers have had a great deal of success integrating Quantum Growth into their growing and treatment programs. Quantum Growth is currently being used by multiple greenhouses across the United States and internationally, including some of the largest and most prestigious growers in the world. Growers will see better results with reduced costs.

The benefits of Quantum Growth include:

- Greener plants and enhanced growth.
- Improved health and disease resistance.
- Deeper root growth.
- Faster seed germination and growth.
- Quicker recovery from physical and disease damage.
- Lower chemical and fertilizer use.
- Reduced fertilizer runoff.
- Water retention and drought resistance.
- Higher brix levels and nutrient density.
- More blooms and flowers.

Best Practice

Quantum Growth

Best Practice

Quantum Growth

Top: Lantana from Ace Hardware at 3 weeks (left) and 6 weeks (right) after treatment.
Bottom: Orchids from Odum's Orchids demonstrate better results with Quantum Growth.

Application Information

Use Quantum Growth at a rate of 3 oz per 1,000 square feet (1 gallon per acre), or at 2 ounces per gallon of water. For best results, mix Quantum-Light and Quantum-VSC at equal rates.

Spotlight - Tim Stearns, Manager of Client Services:

Tim Stearns, Landscape Florida's Manager of Client Services, has a varied and extensive field background in all aspects of the services we provide to our clients. Having started out in irrigation 17 years ago, Tim has also had roles in Pest Management, Maintenance and Projects. This wide range of experience is crucial in Tim's activities here at Landscape Florida and for our clients! Tim's focus, as Manager of Client Services, is on the delivery of *Quality, Service & Expertise* to our clients and their landscapes. He manages our custom Client Request System & company APP, performs routine reviews of properties, prepares landscape renovation & enhancement plans and works diligently to ensure that Landscape Florida's clients experience the very best we have to offer! When not at work, Tim enjoys family time with his wife and their seven children. Say hello to Tim when you see him!
