Projects - Naples Princess & Naples Trolley!

Check out our recently completed landscape re-imagination projects to two historic Naples Icons—*The Port O' Call Marina* and *The Naples Trolley Depot*. Both properties were recently purchased by Hoffmann Commercial Real Estate (we are their exclusive landscape management provider) and we were immediately tasked with providing a fresh, new landscape to compliment building and site upgrades! From concept and plans to installation of the new materials, Landscape Florida provided both of these Naples Landmarks with a completely new look with native plants! Check them out!

For The Trolley and The Princess, we provided our client with full renovation plans for the parking areas and Frontages. These included Design, Installation and Irrigation Renovations! Our client has been getting compliments!

Quantum Growth™

PROBIOTICS FOR PLANTS, TREES & TURF
ALL NATURAL • 100% ORGANIC • SAFE & NON-TOXIC
SAFE FOR USE WITH ALL PLANTS, TREES, TURF, FRUITS AND VEGETABLES.

Greenhouse Results

Quantum Growth contains a consortium of probiotic beneficial microorganisms that provide key traits for plant, tree and turf health and growth enhancement.

Greenhouse growers have had a great deal of success integrating Quantum Growth into their growing and treatment programs. Quantum Growth is currently being used by multiple greenhouses across the United States and internationally, including some of the largest and most prestigious growers in the world. Growers will see better results with reduced costs.

Benefits & Results

- The benefits of Quantum Growth include:
 - Greener plants and enhanced growth.
 - Improved health and disease resistance.
 - Deeper root growth.
 - Faster seed germination and growth.
 - Quicker recovery from physical and disease damage.
 - Lower chemical and fertilizer use.
 - Reduced fertilizer runoff.
 - Water retention and drought resistance.
 - Higher brix levels and nutrient density.
 - More blooms and flowers.

Application Information

Use Quantum Growth at a rate of 3 oz per 1,000 square feet (1 gallon per acre), or at 2 ounces per gallon of water. For best results, mix Quantum-Light and Quantum-VSC at equal rates.

Top: Lemons from Aca Harvesters at 3 weeks (left) and 8 weeks (right) after treatment. Bottom: Orchids from Odor's Orchids demonstrate better results with Quantum Growth.

Using Science in the Soil!

Landscape Florida is always looking for more ways to help our clients plant materials thrive and we have recently added *Quantum Growth* to our line up of resources. *Quantum Growth* is manufactured in a laboratory right here in Southwest Florida and is widely used by the Citrus industry to promote healthier, faster growing fruit trees. What's amazing about this product is that its actually ALIVE! Its made up of millions of living vegetative bacteria that, when introduced to the soil, reproduce, interact with the plant's root system, attract beneficial organisms and biologically balance and improve conditions for optimal growth and health. Landscape Florida is currently offering this amazing product to clients whose plant materials are currently stressed or in need of additional care and we have used it successfully to recover many damaged palm trees from Hurricane Irma! Contact us for more on this safe and eco-friendly product!

Uniforms that Inform:

We uniform our employees by task so that our clients can easily see who is performing what type of contracted activity we are providing or who they may want to talk to!

Spotlight - Juan Torres - Client Service is Job #1:

Juan Torres
Manager of Operations &
Client Services

Juan Torres is a familiar face to most Landscape Florida Clients and has been recently promoted from Supervisor of Pest Management to Manager of Operations & Client Services. In his new role, Juan works hands on to ensure the highest levels of quality are provided to our Clients and he coordinates those service levels with our Crews in the field. Juan also manages and coordinates our exclusive 'Live Client Request' APP, developed by Landscape Florida to manage our daily activities and delivery of service to our Clients. Originally from Argentina, Juan and his family love living in beautiful Southwest Florida. Congratulate Juan when you see him on property!
